

Contents :

| | |
|--|-------|
| Layer deposition strategies in FFF technology and their influence on tribological properties | 01-06 |
| Determination of pectin from Orange, Pomegranate, Lemon and Banana fruits | 07-09 |
| Research on the Development Path of "Dual-Qualified" Intelligent Construction Teaching Teams | 10-16 |
| Enhancing Residential Living: An Innovative IoT-Based Home Automation System for Convenience, Security, and Accessibility | 17-20 |
| Diabetes Detection Using Machine Learning and Deep Learning Approaches | 21-24 |
| Utilizing Ultra Wideband Technology for Health Monitoring through Lens of Machine Learning | 25-31 |
| Exploring Artificial Intelligence and Machine Learning Programming for Automated Problem-Solving Simulations: A Review | 32-36 |
| OHMIC Resistance Measurement | 37-41 |
| An Approach of Interactive Learning Interface | 42-46 |
| Evaluation of earring when drawing cups from high-strength materials | 47-52 |
| Image Matching Approach Integrated To Image Evaluation Techniques To Generate Augmented Reality In The Open Area Environments | 53-64 |
| Evaluation and its Analysis of Study Course: Pharmacology | 65-71 |
| A Real-Time Flood Monitoring and Alert System: Enhancing Community Resilience through Technology Integration – A case Study of River Tana in Kenya | 72-80 |
| Innovative Application of Digital Printing Technology in "China Chic" Clothing | 81-89 |
| Emotion-Based Music Recommendation System | 90-95 |
