

Contents :

Experimental Investigation to Analysis the Impact Damage of Un-Peened and Peened Of Aa7075-T6 Using Water Jet Peening Processes	01-08
The Effect of Weight Fraction Composition and Sintering Temperature on Hardness of Ceramic Composites Made By Fly Ash and Waste Glass	09-15
Blockchain-based Ransomware Detection & Prevention: A Comprehensive Survey	16-37
Development and Performance Evaluation of Locally Fabricated Robotic Solar Lawnmower	38-48
Chinese Idioms and Their Application in Chinese Teaching to Vietnamese Students	49-55
Experimental study on compressive strength of basalt fiber reactive powder concrete	56-61
Smart Building Synergy: Integrating IKB and IoT for Enhanced Energy Efficiency	62-69
The Marine CSEM and Seismic Methods: An Integrated Approach to Derisking a Frontal Toe Thrust Exploration Prospect Offshore West Africa	70-85
Contribution to the Study of Water Behavior and Durability of Wood-Polymer Composite Bricks	86-94
Evaluating industrial wastewater's impact on Walayar river: A GIS approach	95-107
Preventing Jellyfish Attacks on Electrical Power Plants in Kuwait: An Innovative Solution	108-113
Quantitative Study on the Effect of Shrinkage and creep and Foundation Settlement on the Widened T-Beam Bridge	114-123
Determination of yield strength of thin steel plates by various tests	124-128
Enhancing Customer Churn Prediction: Addressing Disparities and Imbalance in Machine Learning Models	139-148
